## Behavioral Observation of Students in Schools

*Edward S. Shapiro*

**Easily monitor and record students' behavior  
with the new BOSS App from Pearson!**

The time-tested BOSS direct observation program is now available as a smart phone application, making it easier than ever for you to monitor students' behavior. Backed by extensive research, the BOSS system provides reliable and valid data on specific problem areas—so that you can determine appropriate remediations to help students succeed.

### Features & Benefits

Take advantage of this new app to help easily pinpoint areas for behavior remediation. Use this intuitive tool with grades pre-K through 12 to assist you in:

- Recording and tracking frequency of targeted positive and negative behaviors.
- Documenting a student's active or passive engagement in activities.
- Tabulating data and emailing it to you for future use to help support a disability diagnoses

**BOSS Application 0150014384 \$29.99**

To download the BOSS app, visit the Apple® or Android™ app stores.
