Agenda

Development

What is Q-global?: An Overview

Q-global in Action: A look inside

Security

Necessary Hardware

Getting Started:, Pricing, and Ordering
Development:
From then, til now
As times change

1930’s

Present
Taking the next steps

• ASSIST released in 1995
  – Allowed users to manually enter scores for report writing
  – >30 assessments (BASC-1 & 2, VABS-I/II, GRADE, GMADE)
• PsychCorp released in 2007
  – Allowed users to manually enter scores for report writing
  – >37 available reports (WISC-IV, WPPSI-III, Microcog for Windows)
  – Report writers available
• PsychCorp II released in 2008
  – Added 10 reports
  – Examples include: WAIS-IV, WMS-III, WIAT-III
• Q-Local released in 2004
  – Allowed for user to manually enter data, but also administer digitally on screen.
  – ~90 assessments (MMPI-2, MCMI-III, 16PF)
• Q-global released in 2013
  – Allows users to manually enter scores, digitally on-screen, and remotely.
  – 65 assessments and >95 forms (BASC-3, VABS-III, MCMI-IV, MMPI-2-RF, Shaywitz DyslexiaScreen)
What is Q-global?
What is Q-global?

- Pearson’s web-based platform for test administration, scoring, and reporting.
- Primarily focused on the administration of questionnaires, rating scales, and inventories.
  - Allows for entering of raw scores for larger assessments.
- Depending on the assessment, 3 different ways to administer:
  - On-screen Administration: Administer the assessment on the screen of any web-enabled device
  - Remote On-screen Administration: Allows a respondent to access the assessment from their own web-enabled device through sending a secure URL via email.

- Q-global is the next evolution of Pearson’s scoring systems, including:
  - ASSIST
  - Psychcorp I & II
  - Q-Local
- Where these “legacy” systems required that assessment data be stored locally on the computer, Q-global stores assessment data on Pearson’s secure, encrypted database.
- As a web-based system, Q-global gives you access to all of your data from the convenience of any web-enabled device.
# Administration Methods

## Paper
- One record form to replace hand scoring, computer entry and scanned forms.
- Separate worksheets for manual scoring.

## Digital
- Usages: Pay per reports (Includes on-screen administration, scoring, and reporting.)
- Unlimited Scoring Subscriptions (Includes scoring, and reporting. Does not include on-screen administration.)

## Options

*On-screen Administration and Remote On-screen Administration*
Inventory

- Inventory is required to generate reports in Q-global.
- There are 3 types of Inventory in Q-Global:
  - Asset Inventory
    - Digital manuals, stimulus books, etc.
  - Usage Inventory
    - Allows a user to generate 1 report.
    - Scores assessments for all 3 methods.
  - Subscription Inventory
    - Allows users to generate unlimited reports for a 1, 3, or 5 year duration when using the Manual Entry method
      - Allocated on a per user basis.
Q-global vs. Q-interactive

More information on Q-global and Q-interactive can be found at www.helloq.com

The Help Link

Examinee List

The first page displayed (also known as the home page) is the Active list of examinees for your account. From here you can view and manage examinee records as well as assign an assessment, add or delete an examinee from the account. In addition, you also have the ability to import examinee demographics into the system or export examinee demographics and item/raw scores on assessments that have been scored and reported.

You can filter this list by clicking the Search icon, entering your search criteria and click the Search button. The view drop down link allows you to view both the active and inactive examinees for your account.

See managing examinees for information on how to view, edit, delete, add, move and merge examinee records.

Additional Information

- You can only assign an assessment to one examinee at a time.
- To assign assessments to a group of examinees, refer to the group overview section of this guide.
Import your examinees into Q-global!

![Image of Q-global interface showing examinee import feature]

The screenshot shows the Q-global interface with a highlighted section that allows users to import examinee data. The interface includes options for managing examinees, groups, assessments, and other administrative tasks. The table displays examinee information such as System ID, Last Name, First Name, Gender, and Date of Birth. The import feature is accessible through the 'More Actions' dropdown menu.
Import your assessment records into Q-global!

Security
How do I know that my data is secure?

• Complies with HIPAA Security Rule regulations.
• Encryption of data in motion using HTTPS and TLS.
• Encryption of data at rest within the database.
• Password complexity and secure passwords features.
• Three tier architecture with firewalls and segregation of systems.
• Secure management of user roles and permissions within Q-global.
• Account Owner, Account Administrator, Assessment Administrator, Data Entry Operator.
Q-global Workflow: Manual Entry/OSA

Within Q-global, users can access examinee data, assign assessments, select administration method, enter data, and score/generate reports.

Reminder: Q-global data is encrypted while in motion (HTTPS/TLS) and when at rest (encrypted database).
Q-global Workflow: ROSA

Reminder: Q-global data is encrypted while in motion (HTTPS/TLS) and when at rest (encrypted database)
Necessary Hardware
System Requirements

• A computer with access to the Internet through a standard web browser.
  • You can also access Q-global through a web-enabled mobile device (tablet, smartphone).
• A Q-global account that has been activated and has inventory.
• Operating Systems:
  • Windows 7-10
  • Mac OS 10.9 or higher
• Compatible web browsers:
  • Chrome (recommended)
  • Firefox (recommended)
  • Safari
  • IE 10.0 & 11.0
  • Edge
• Make sure to add qglobal.pearsonclinical.com to your web browser’s pop-up blocker exception list.
Getting Started: Pricing and Ordering
Pricing

• Prices for individual usages, subscriptions, and assets can be found on each assessment’s page on the Pearson Clinical website.
• Q-global product page on pearsonclinical.com allows you view and add inventory to your cart by subscription and usage type.
• Usage volume discounts are available for select assessments. Check individual product pages for details
• Q-global licenses are free!
  – You only pay for inventory.
Includes manuals, intervention guides, and stimulus books.

Price range:
- Digital Assets are the same as their physical counterparts.
  - Ex: VABS-III manual is $150 for either digital or physical
- Digital assets are allocated **per user**, not per account.
  - Ex: If there are 10 users on an account and they all want access to a digital manual, 10 digital manuals will need to be purchased.
Subscriptions

- Subscriptions allow a user to generate an unlimited number of reports.
- Available in 1, 3, and 5 year intervals.
- Subscriptions are an option for the Manual Entry administration method only.
- Subscriptions are allocated to users, not to an account.
  - Ex: If an account wanted all 10 users to have access unlimited BASC-3 scoring, 10 subscriptions would be required.

</tr>
</tbody>
</table>
Usages

• Allows a report to be generated from any of the 3 delivery methods (Manual Entry, On-screen Administration, Remote On-screen Administration).
• Usages must be used to generate a report for the On-screen Administration and Remote On-screen administration delivery methods.
  • Using Q-Global as the record form and scoring program.
• Usages can be allocated on the user, sub-account, and entity account level.
• Usage prices vary by assessment and form.
  • BASC-3 Report: $2.99/usage
  • Vineland-3 Comprehensive: $3.50
  • Shaywitz DyslexiaScreen Report: $.99
  • MMPI-2 Extended Score Report: $17.15 (Q-Local Price: $17.60)
  • MCMI-IV Interpretive Report: $44 (Q-Local Price: $45)
How to get Started: Ordering Inventory
How to order

There are 4 ways to order Q-global inventory:

- Over the phone-inbound sales
  - 800-627-7271 (if an existing user, make sure you have your Q-global account number!)

- Online using your pearsonclinical.com login.
  - Click here to navigate to the Q-global Product page on pearsonclinical.com

- Mail
  - Complete the following form at:

- Email/fax a Purchase Order
  - Your regional Assessment Consultant can assist you with generating a quote.
  - If you do not know who your consultant is, please use the following link:
    http://www.pearsonclinical.com/contact/consultant.html
To recap, Q-global is…

- **Portable**-scoring and reporting from any web-enabled device
- **Efficient**-Many assessments can be digitally administered on your computer or can be sent to a third party to complete remotely.
- **Economical**-Purchase individual report usages or save with unlimited-use subscriptions for paper administrations/Manual Entry Q-global administration*.
- **Extensive**-Scoring is available for 65 assessments and 95+ forms, many of which offer On-screen Administration.
- **Flexible**-Generate individual reports or generate multiple reports at once.
- **Comprehensive**-Many of the assessments offer interpretative reports and/or intervention recommendations.
- **Secure**-You can be confident that your data is secure and encrypted to industry standards.

*Subscriptions are not available for all assessments.*
Upcoming Webinars

February 23, 2017
Transitioning from Q-Local to Q-global:
• Join us for a live demonstration to learn the differences between Q Local and Q-global, understand how Q-global works and explore the benefits of moving to Q-global.

March 7, 2017
Q-global Overview:
• Join us for an overview of Q-global, Pearson's web-based platform for test administration, scoring, and reporting.

March 16, 2017
Q-global Best Practices for Users:
• This webinar will cover a range of topics from setting self as default user to editing assessments (OSA/ROSA) to understanding batch versus group reporting.
