Learning to Use Q-interactive: On-boarding for Psychologists Who are New Users

Presented by: Anne Marie Kimbell, Ph.D., MSEd. & Jarett Lehner

Tuesday, September 25, 2018
12:00 p.m. to 1:30 p.m. Eastern

Sponsored by: Pearson Clinical Assessment

Overview
Q-interactive is Pearson’s platform for administering and scoring individually-administered tests digitally. The presenter will demonstrate how a psychologist can use the system in their practice. This beginners-level course walks attendees through a sample assessment process using psychological assessments available on Pearson’s Q-interactive platform.

The presenter will show how to set up iPads, create clients, assign a test battery, administer tests on the Assess app, generate score reports, and access support materials. If you are already a Q-interactive user, log-in to Q-interactive before the session and you can follow along while the presenter demonstrates each process.

Learner Outcomes
As a result of this activity, the participants will be able to:

1. Identify the differences between Q-interactive Central and Q-interactive
2. Demonstrate the Q-interactive Assess app and perform actions such as scoring test items, displaying stimuli on the Client/Stimuli iPad, and listening to audio recordings.
3. Create an assessment session in Q-interactive Assess and successfully score a report on Q-interactive Central.
4. Use the on-demand training resources and test material on the Support tab of Q-interactive Central

About the Presenters

Anne-Marie Kimbell
Anne-Marie Kimbell is a National Training Consultant for Pearson. She is a licensed clinical psychologist in Texas, and holds a Certificate of Proficiency in Clinical Geropsychology. Anne-Marie received her PhD in Counseling Psychology from Texas A&M University, where she conducted research with the Texas Department of Protective and Regulatory services to test a risk factor assessment for identifying older persons at risk of elder abuse. She completed clinical internship and postdoctoral training in the VA system, conducted research on Aging and Long-Term Care with the Texas A&M Health Science Center, and served as staff psychologist for two VA systems, where she provided clinical services in the areas of geriatrics, palliative care/hospice, rehabilitation, neuropsychology, posttraumatic stress disorder, and primary care mental health integration.

Jarett Lehner
Jarett Lehner is the Q-global and Q-interactive Training and Implementation Consultant at Pearson. As the Training and Implementation Consultant, Jarett works with new Q-interactive and Q-global users to build platform familiarity via system navigation and the digital assessment administration process, both in person and nationally via public webinars. Jarett’s background is in Psychology and he graduated from the University of Minnesota-Duluth’s College of Education and Human Service Professions. Prior to joining Pearson in 2015, Jarett worked as a Psychometrist at an outpatient mental health clinic in Minneapolis, MN.

Disclosure
Anne-Marie Kimbell
Financial: Anne-Marie Kimbell, Ph.D. is employed by Pearson Assessments, the ASHA Continuing Education provider for this session.
Non-financial disclosure: There are no relevant non-financial relationships to disclose.

Jarett Lehner
Disclosure
Financial: The presenter is employed by Pearson Clinical Assessment.
Non-Financial: There are no relevant non-financial relationships to disclose.

The Pearson Assessment Division, the sponsor of this webinar, develops and distributes assessments and intervention tools for speech-language pathologists. Course information will include examples from cognitive ability and from achievement measures to help practitioners new to digital assessment obtain valid and reliable test data to inform intervention and treatment planning which are tests developed by Pearson Clinical Assessment.
